Forecast for Friday 09 Sep 2022

Weather: Mostly cloudy with outbreaks of rain. The rain will be most persistent in the east of the National Park with some heavier outbreaks around the middle of the day. Becoming drier and a little brighter over western fells, extending eastwards during early evening.

Chance of cloud-free hill tops above 800m: 40%, best in west, improving 70% by early evening.

Low cloud and visibility: Extensive mist with fog above about 600 to 700m. Good visibility developing over fells west of Windemere during the afternoon with clouds lifting and breaking a little. These improved conditions extending eastwards to most areas later in afternoon and early evening.

Meteorologist's View
Difficult walking conditions over many of the fells with misty, damp weather. Steady improvement over western fells in afternoon, extending eastwards in the early evening.

Forecast for Saturday 10 Sep 2022
Weather: A much improved day across the National Park. All hills will be dry, bright with sunny spells. Some early mist and fog in the valleys at first.

Maximum wind: Light winds at all levels.

Chance of cloud-free hill tops above 800m: 90%

Low cloud and visibility: Mist in some valleys at first, gradually dispersing, otherwise very good visibility with patches of cloud about 700 to 800m.

Temperature: **Valleys:** Plus 7 Celsius rising to 19 Celsius.
At 800m: Plus 10 Celsius.
Freezing level: Well above the summits.
